Algorithm of Constructing Suffix Tree

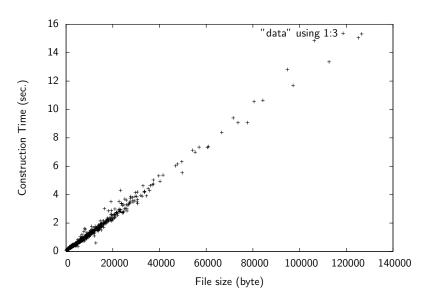

Experiment – mississippi

Experiment – English text

jc-yang (Osaka-U) SuffixTree October 14, 2011

Works in next week

- Implementing Longest Common Substring algorithm using Generalised Suffix Tree based on Ukk's algorithm.
- Implementing Tokenization on Python codes.
- Implementing DC3 algorithm of Suffix Array and compare their performance.
- Reading and Understanding n-gram algorithm and its application in code-clone detectation.
